Science Communication 101

Saturday, January 21, 2023 8:30 AM (1 hour)

Great communication skills are a huge asset in any career, whether you're considering academia, industry, STEM education, science policy or something totally different. In this short training, you'll get a crash course in the fundamentals of science communication. You'll learn about –and practice –basic tools and techniques that will improve your ability to communicate to different types of people in a range of situations, from conference presentations to public outreach events.

Presenters: BURGESS, Jessica (Education Outreach Lead, Argonne); Dr YURKEWICZ, Katie (Head of Scientific & Technical Communications, Argonne); MITCHEM, Savannah (Integrated Communications Coordinator, Physical Sciences and Engineering, Argonne)

Session Classification: Forums/Skills Workshop
