

Isotopes Working Group session

Program for 15 November 2022

Etienne Vermeulen	Making highactivity radioactive targets for nuclear physics experiments
Jerry Nolen	Using the upgraded GammaSphere to study Fusion/Evaporation reactions to improve predictions of yield and purity of medical isotopes.
Alyssa Gaiser	Isotope Harvesting and Applications at FRIB
Katharina Domnanich	Isotope Harvesting at FRIB: Upcoming Opportunities for Scientific Applications
Jennifer Shusterman	Isotope harvesting for nuclear data measurements
open discussion
