

Nuclear Structure 2024

Thursday, July 25, 2024

Structure of Light Nuclei - Part 2 - Auditorium (10:55 AM - 12:20 PM)

-Conveners: Ingo Wiedenhoever

| time | [id] title | presenter |
|----------|--|-----------------|
| 10:55 AM | [46] Beyond the proton drip line and onward to the fuzzy proton-rich edge of the chart of nuclides | CHARITY, Robert |
| 11:20 AM | [47] First β -delayed neutron spectroscopy of ^{24}O | NEUPANE, Shree |
| 11:40 AM | [48] Structure of $A = 22$ analogue states revealed through mirrored-transfer across the isobaric triplet | HENDERSON, Jack |
| 12:00 PM | [49] Mixing between single particle and intruder states towards the $N=20$ island of inversion: lifetimes in ^{37}S | ZAGO, Luca |
