

Nuclear Structure 2024

Friday, July 26, 2024

Heavy Nuclei and Super Heavy Elements - Part 2 - Auditorium (9:00 AM - 10:25 AM)

-Conveners: Rodney Orford

time	[id] title	presenter
9:00 AM	[58] Exploring the structure of the heaviest nuclei through laser spectroscopy and mass spectrometry	BLOCK, Michael
9:25 AM	[59] Recent results obtained with the Argonne Gas-Filled Analyzer: observation of the ground-state rotational band in the highly fissile nucleus ^{250}No	SEWERYNIAK, Darek
9:45 AM	[60] New half-lives measurements for r-process in $A \approx 225$ Po-Fr nuclei	POLETTINI, Marta
10:05 AM	[61] Nuclear resonance fluorescence of ^{242}Pu	BEUSCHLEIN, Maïke
