

## **Session Program**

**Sep 19 – 20, 2025**

# **QGT Topical Collaboration Meeting**

## ***Session D***

Argonne National Laboratory, Physics Division Auditorium  
9700 S Cass Ave, Lemont, IL 60439

## Fri, September 19

3:30 PM

### Session D

**Session** | **Location:** Argonne National Laboratory, Physics Division Auditorium, 9700 S Cass Ave, Lemont, IL 60439

15:30 – 15:50 **Energy and momentum densities**

**Speaker**

Adam Freese

15:50 – 16:10

**Perturbative Accuracy for Calculating Parton Distributions under Large Momentum Effective Theory**

**Speaker**

Yushan Su

16:10 – 16:30 **String-based approach to GPDs**

**Speaker**

Ismail Zahed

16:30 – 16:50 **Tensor network simulations of quasi-GPDs in the Schwinger model**

**Speaker**

Jake Montgomery

16:50 – 17:10 **QGT Database**

**Speaker**

Marjorie Romero

5:10 PM
